<p>Description: In the affected vehicles, there is a possibility that the driver and passenger seat wiring harness could become damaged during longitudinal seat adjustment.</p> <p>In the affected vehicles, there is a possibility that the driver and passenger seat wiring harness could become damaged during longitudinal seat adjustment.</p> <p>Remedy: Inspection and rework of front seat wiring harnesses</p>			
05/13/2022		Porsche Cars North America	Manufacturer Voluntary Service Action issued - Program #WMP2 REWORKING CHARGING ELECTRONICS - (PORSCHE MOBILE CHARGER) Click here or call 1-800-PORSCHE to locate an authorized Porsche dealer near you. - Learn more about this campaign
<p>Description: If the domestic and industrial electrical outlets are not sufficient, higher temperatures can occur in the plug socket when charging the vehicle using the Porsche Mobile Charger in conjunction with NEMA industrial plugs due to the higher charging current. In this case, heat damage to the electrical socket cannot be ruled out. To prevent this from happening, a warning sticker will be affixed to the Porsche Mobile Chargers in the affected markets using the NEMA standard and the charging current is initially limited to 50%. For further awareness, the customer will also be given a supplement to the Driver's Manual.</p>

Glossary

Certified Pre-Owned Vehicle

Certified Pre-Owned Vehicles (CPOs) are used vehicles that meet the certification criteria established by the manufacturer. Although each manufacturer establishes its own criteria to certify a vehicle, manufacturers typically certify recent model year vehicles with low mileage. CPO vehicles typically undergo a comprehensive inspection and come with a manufacturer-backed warranty and require a vehicle history report as part of the certification process.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
